

TAX EXEMPTED CUSTOMER GROUPS MODULE

With the help of this module, you will be able to declare the customer groups which are tax exempted. If the customer is belonged to any of the selected customer groups below, they will be tax exempted.

You can provide privileges to your selected customers or customer groups.

Steps to tax exempt your customers:

1. Create a new customer group. (Backoffice>Customers>Groups>Add New Group)
For example: Tax Exempt Group
