

Thumbnail Regenerator

v1.1.0

Reliably regenerate thumbnails for all images in your shop.

Installation

Thumbnail Regenerator is installed like any other module. Simply upload your archive to install it.

Usage

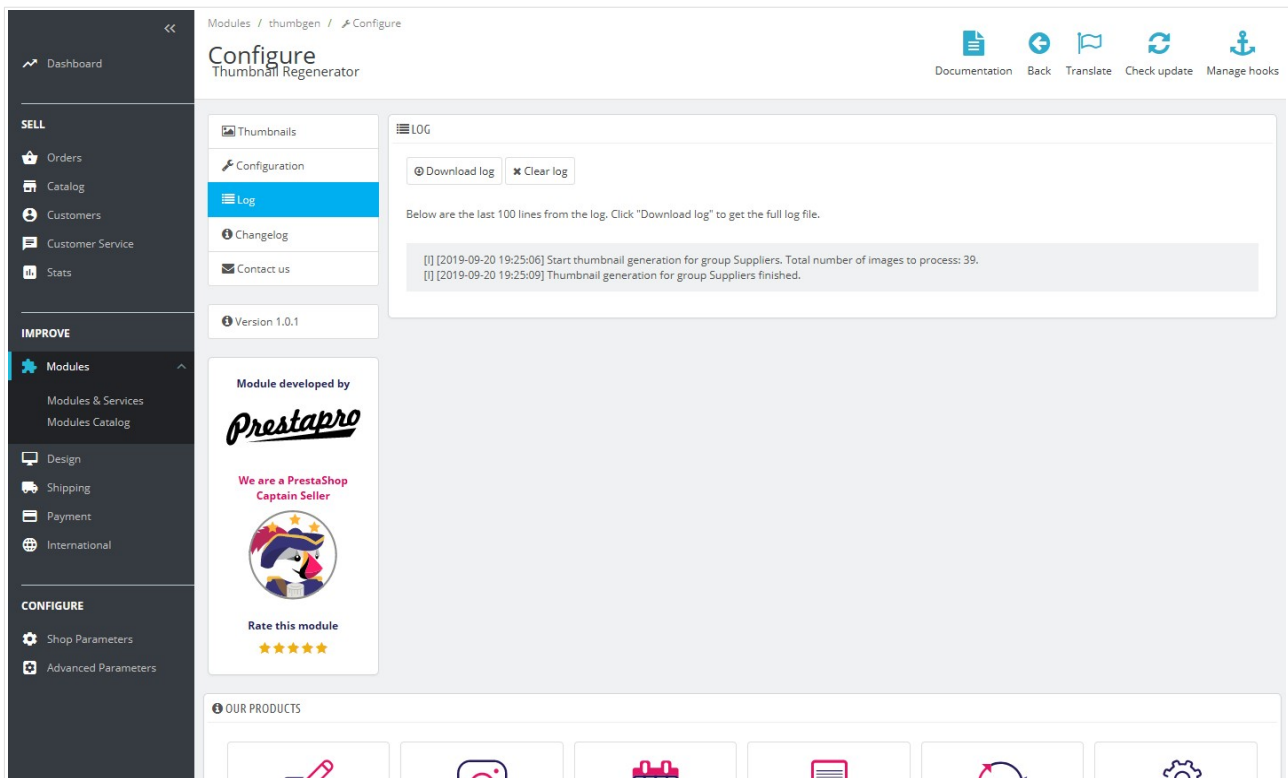

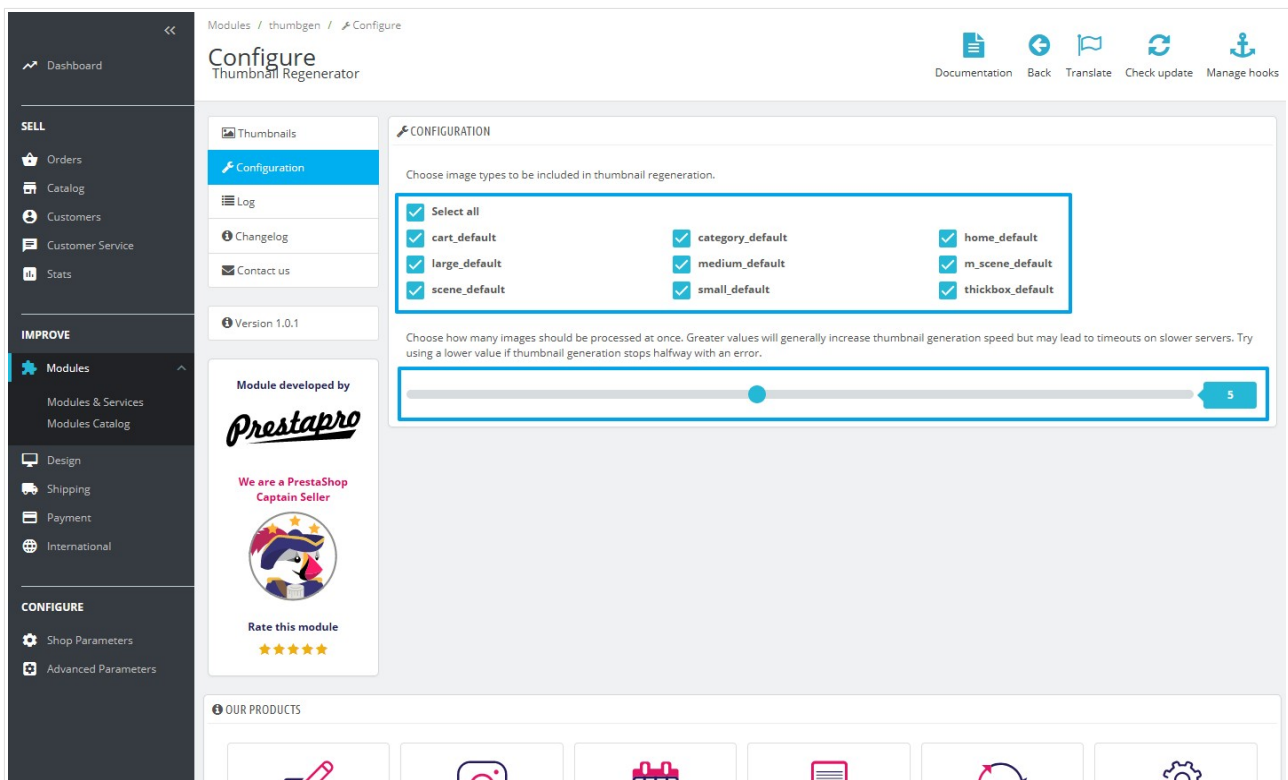

Thumbnail Regenerator is a tool that allows you to regenerate thumbnails of images. It does not matter how many images you have in your shop, this module will regenerate all of them quickly and without timeout errors. You can either choose to generate thumbnails of all images or choose a specific image group. (categories, manufacturers, products, etc.) You can also specify which thumbnail types should be generated.

Click **Start** to regenerate all thumbnails in the corresponding image group. Click **Stop** to pause and **Resume** to continue regeneration from where you left off.

If you experience errors during thumbnail generation, try lowering the number of images that are processed at once. Available values range from 1 to 10. Greater values will generally increase thumbnail generation speed but may lead to timeouts on slower servers.

The screenshot shows the 'Configure Thumbnail Regenerator' interface. On the left is a sidebar with navigation links: Dashboard, SELL (Orders, Catalog, Customers, Customer Service, Stats), IMPROVE (Modules, Design, Shipping, Payment, International), and CONFIGURE (Shop Parameters, Advanced Parameters). The main content area is titled 'Configure Thumbnail Regenerator' and includes a 'THUMBNAILS' section with a 'Regenerate thumbnails in all image groups' button. Below this is a table with columns 'Image group', 'Actions', 'Status', and 'Image count'. The table lists five image groups: Categories, Manufacturers, Products, Suppliers, and Stores, each with a 100% completion status and a progress bar. The 'Actions' column for each group contains three buttons: a play button (Start), a pause button (Stop), and a square button (Resume). The 'Status' column shows a blue progress bar at 100% and the 'Image count' column shows the total number of images for each group (79 / 79, 27 / 27, 2 / 2, 39 / 39, 5 / 5). At the bottom of the main content area, there is a section titled 'OUR PRODUCTS' with several product thumbnails.

Image group	Actions	Status	Image count
Categories	  	100%	79 / 79
Manufacturers	  	100%	27 / 27
Products	  	100%	2 / 2
Suppliers	  	100%	39 / 39
Stores	  	100%	5 / 5
